

AIRPORT IMPROVEMENT PROGRAM (AIP)

The AIP Match Rate for Fiscal Year 2010-11 was set at 2.5 percent of the federal grant. The same rate is proposed for 2011-12.

Once you receive the FAA grant, you may apply to the State for matching grant. Grants are processed in the order received, pending funding availability. Depending upon the number of grant applications received, processing time can range from between 2 to 3 weeks.

Please allow adequate processing time before issuing a notice to proceed date to your contractor.

Your AIP Matching application package must include:

- [State Matching Grant](#) for FAA Airport Improvement Program
- Local government approval for the state matching grant ([Sample Resolution](#))
- FAA grant agreement with FAA and sponsor signatures
- CEQA documentation (Note: NEPA clearance does not satisfy CEQA requirements)
- Sketch of project location and dimensions

Submit your application and documentation to:

California Department of Transportation
Division of Aeronautics – MS 40
P.O. Box 942874
Sacramento, CA 94274-0001
